

The Healthy Native People Coalition

The Healthy Native People Coalition is a collaborative network dedicated to improving health outcomes for American Indian populations through Policy, Systems, and Environmental (PSE) change. The coalition brings together internal and external stakeholders committed to shared learning and collective action.

JOIN US FOR THE HEALTHY NATIVE PEOPLE COALITION

The coalition focuses on key areas that directly impact community health, including:

Fruit and Vegetable Incentive Voucher & Produce Prescription Programs – Expanding access to nutritious foods.

Food Service Guidelines – Promoting healthier food environments.

Community Landscape Design for Safe Physical Activity – Creating spaces that support active lifestyles.

Commercial Tobacco Cessation and Control – Reducing tobacco-related health disparities.

Adult Vaccinations – Increasing access to immunizations for disease prevention.

By working together, the Healthy Native People Coalition strives to create lasting, community-driven changes that support healthier lives for Native populations.
